- Internet Technology

Experience

Unicro Solution Company **Feb 2024 – July 2024**
Web Development Intern *Surat, Gujarat*

- Developed and maintained dynamic web applications using PHP, JavaScript, HTML, CSS, AJAX, and jQuery.
- Contributed to hospital management and ERP projects by implementing user interfaces, form validation, and employee allocation modules.
- Collaborated with cross-functional teams to integrate front-end and back-end components for seamless performance.
- Assisted in debugging and optimizing web applications to improve speed and reliability.

Sakrat Company **Jan 2025 – Apr 2025**
Web Development Intern *Surat, Gujarat*

- Developed and maintained APIs using C and ASP.NET.
- Implemented CRUD operations with Entity Framework and PostgreSQL.
- Built small-scale projects to enhance database interaction and performance.
- Collaborated with the team to troubleshoot and optimize backend services.

Projects

Bid Bazzar – E-commerce and Auction Platform | *PHP, HTML, JS, AJAX, jQuery, CSS* **Dec 2023**

- Developed a full-stack e-commerce platform where vendors can upload and manage product listings, similar to Amazon.
- Implemented dynamic product listings with real-time updates and live auction features.
- Enabled secure user participation in auctions, ensuring smooth transactions and a responsive interface.

RentRadar | *PHP, MySQL, HTML, CSS, JavaScript, Bootstrap* **Apr 2024**

- Developed a rental property platform enabling users to search, filter, and view available homes with full property details.
- Implemented user authentication and landlord dashboards for managing property listings.
- Added dynamic search and filtering for a smooth user experience across devices.
- Designed a clean, responsive interface using Bootstrap and JavaScript.
- Planned integration of an AI-based chatbot for customer support and real-time inquiries.
